Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a food decorating assembly, classified in class 425.
- II. Claims 11-14, drawn to a method of decorating food, classified in class 426, subclass 383.

The inventions are distinct, each from the other because, the apparatus as claimed in Group I can be used to extrude any extrudable material, edible or inedible such as play-doh or other inedible plastic materials which could be used to form inedible decorative articles such as permanent arts of work such as plaster designs on ceilings or walls.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art requiring separate searches as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
